The Scientific Validation of Pranic Healing and its Clinical Applications

Research Work

Clinical Applications

Limitations of Modern Medicine!

ý Inability to deal with the varied response of the human body to Standard Medical Intervention.

ý Lack of holistic nature of cure, attributed to the Psychosomatic nature of the disease process.

ý Lack of scientific procedure to Regenerate Specialized Tissues.

Why Complimentary Therapy?

- ý The healing procedure can be so designed as to meet with the valid response of the human body and can be Ailment specific, Condition specific and Persona specific.
- ý In addition it helps in the enhancement of the body's response to the Medical Intervention.
- ý A marked reduction of Side-Effects and Complications that invariably accompany medical / surgical therapy.
- ý An increased response of the body to the Regeneration of bones, cartilages, tendons and specialized tissues.
- ý A marked reduction in the convalescence period.

Beneficial Applications of Pranic Healing in Surgery

ý Near immediate stoppage of bleeding

Oxygen saturation

Heart rate

100
124

8:10

99
75

8:17

This is the case of bleeding after removal of the wisdom tooth with increase in the Heart Rate, probably due to the Fear of undergoing extraction. After Pranic Healing, bleeding was completely arrested. The Heart Rate was brought to normal & the patient experienced a sense of relaxation. All of this was achieved in about seven minutes as seen above on the indicators of the Pulse Oximeter.

This shows that stoppage of bleeding can be successfully achieved through Pranic Healing.

Beneficial Applications of Pranic Healing in Surgery

ý Facial Wound Healing

Case of Road Traffic Accident
Where Rapid and uneventful
Wound Healing has taken place
after the Surgery and Pranic
Healing

This was achieved in less than
the time that it normally takes to
heal.

Pre-operative

Post-operative

Normal Recovery Time: 12 months
Complimented with Pranic Healing: 5 months

Beneficial Applications of Pranic Healing in Surgery

ý Minimal Post-Traumatic / Operative Swelling

PRE-OPERATIVE

POST-OPERATIVE

Normal Recovery Time: 8 months
Complimented with Pranic Healing: 4 months

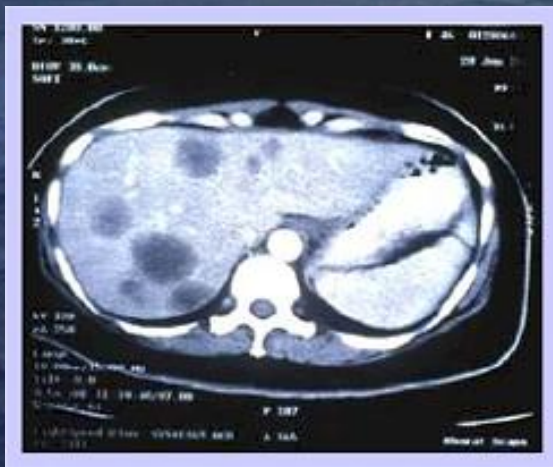

Dealing with Cancer

- ý Meningioma of the Brain, treated with a combination of Surgery and Pranic Healing.
- ý Total regeneration of Brain tissue was achieved in six months, which is considered Phenomenal by normal accepted medical Standards.

Dealing with Cancer

- ý Adenocarcinoma of the liver was treated with a combination of Chemotherapy and Pranic Healing
- ý Within six months the 30 observed lesions in the liver were brought down to 5.
- ý However, the Liver function test showed normal values suggesting that the residual lesions see in the scan may only be the healed scar tissue.

In Skin Grafting

A Case of Cancer of the Nose:

Clinical application of our experimental procedure resulted in faster healing and proper uptake of skin grafted wounds

Pre-operative

Post-operative

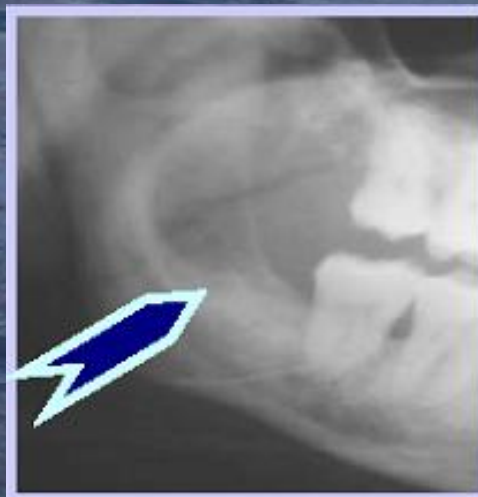

Normal recovery period: 15 months
Complimented with Pranic Healing: 10 months

Regeneration – Bony Tissues

- ý In conventional healing, damage to Bony Tissues caused by surgery / trauma, is not known to regenerate totally to original anatomical form
- ý However, in this case through Pranic Healing, the original form & function of the jaw was restored, within 18 months after surgical removal of the Dentigerous cyst.

Before Surgery

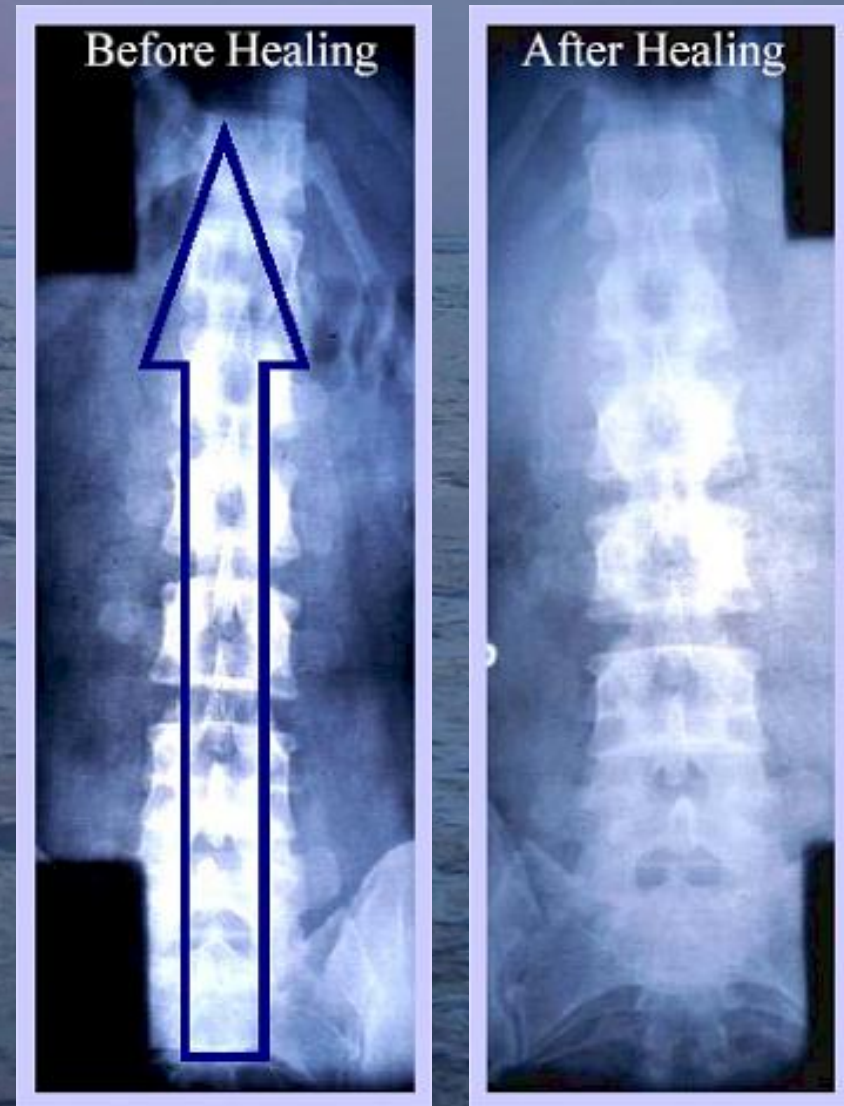

After Surgery

After 18 months

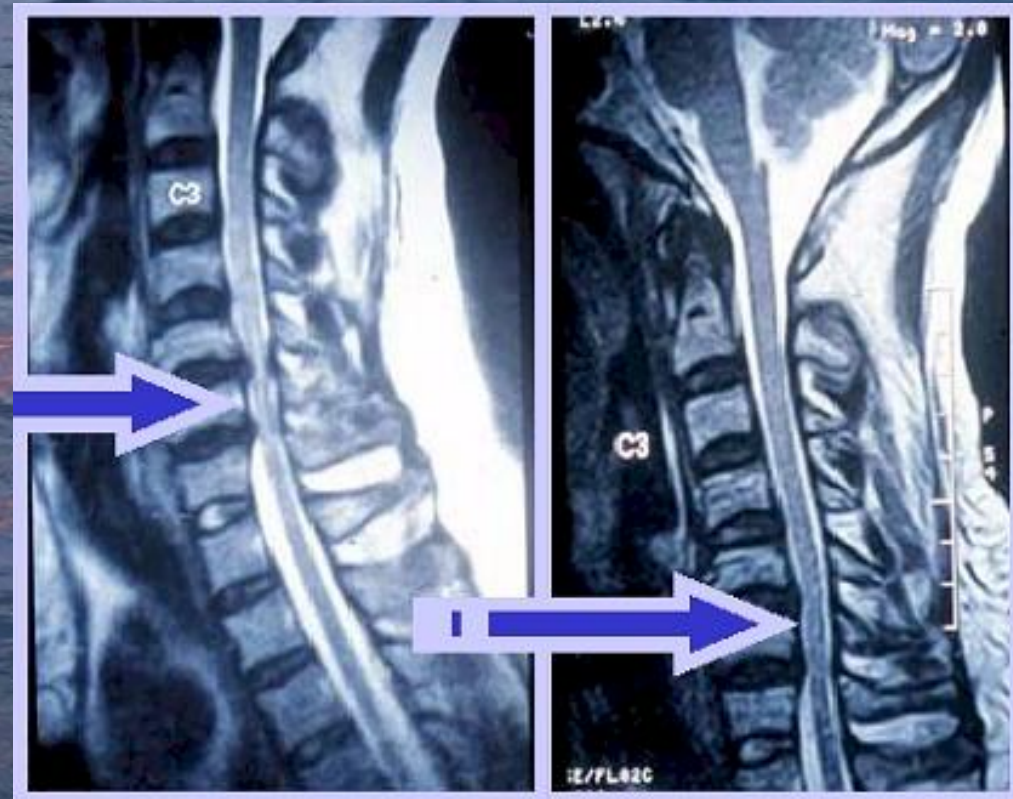

Regeneration – Spine

- ý A case of scoliosis with osteophytes and degeneration of the inter-vertebral discs.
- ý After 6 months of Self Pranic Healing, one can observe the proper straightening of the spine, very few osteophytes with complete regeneration of inter-vertebral discs.

Regeneration – Spinal Chord

- ý A case of spinal injury due to prolapsed disc, leading to Paraplegia, due to Impingement of Spinal Chord.
- ý After 3 months of Pranic Healing alone, total restoration of form and function of limbs was established.
- ý Complete relief from pain, discomfort and impaired movement.
- ý Observable realignment of discs relieving the impinged spinal chord.

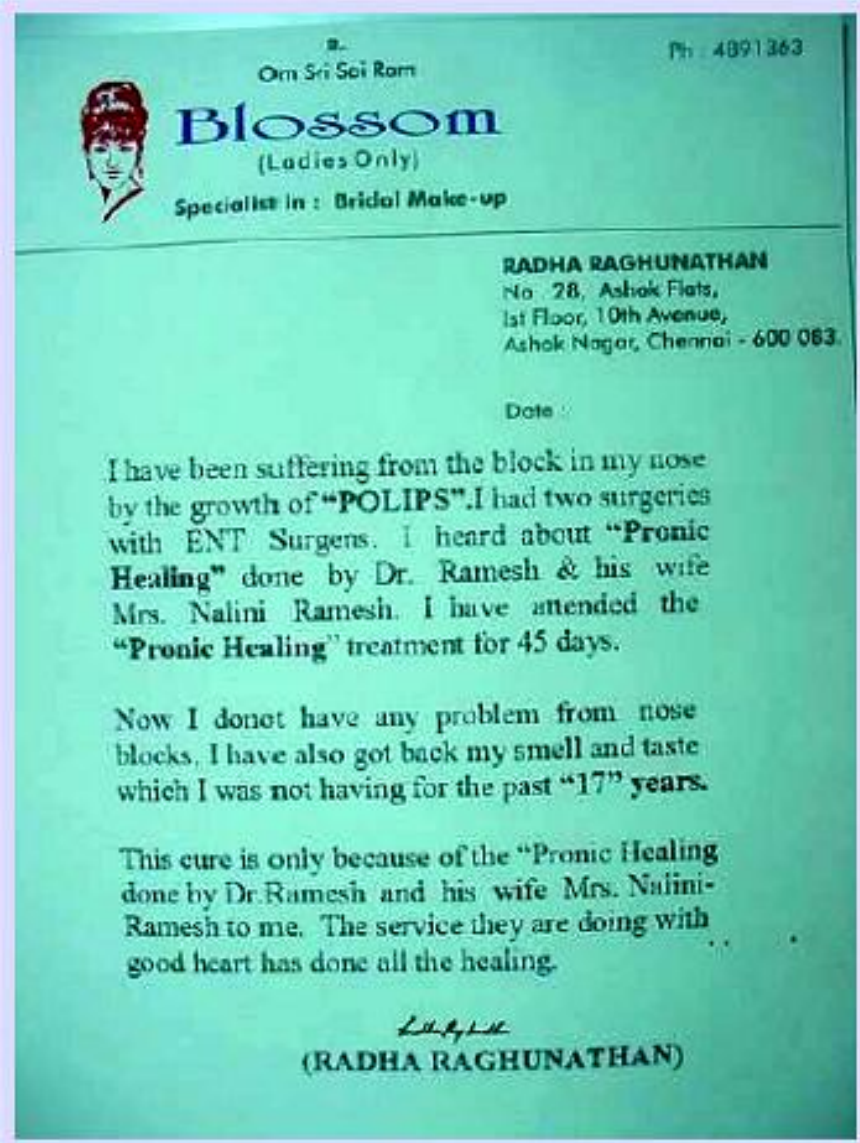

Regeneration – Special Senses

ý A case of Loss of Smell and Taste for 17 years after a Nasal Surgery.

ý Within 45 days of Pranic Healing alone, total restoration of smell and taste was achieved.

ý This can be considered to be a Medical Miracle.

Date :

I have been suffering from the block in my nose by the growth of "POLIPS". I had two surgeries with ENT Surgens. I heard about "Pranic Healing" done by Dr. Ramesh & his wife Mrs. Nalini Ramesh. I have attended the "Pranic Healing" treatment for 45 days.

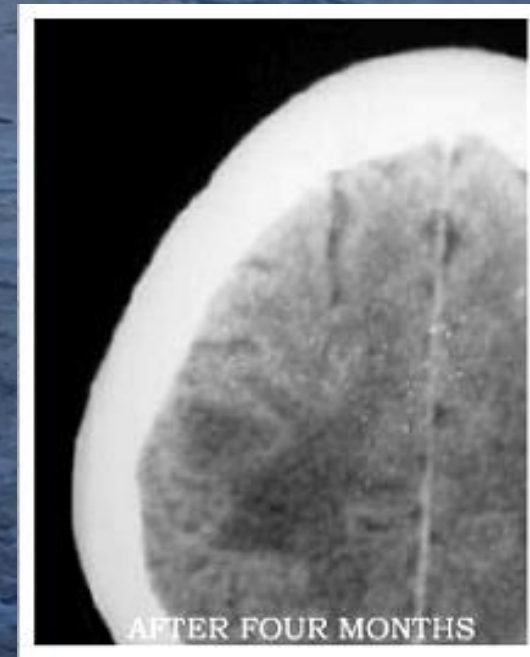

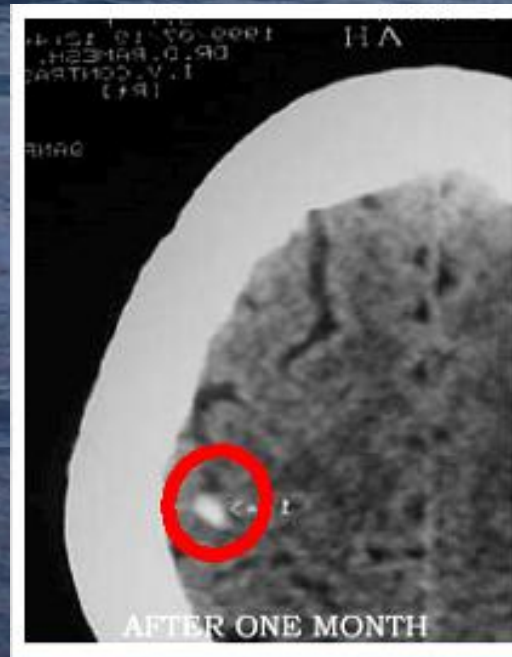

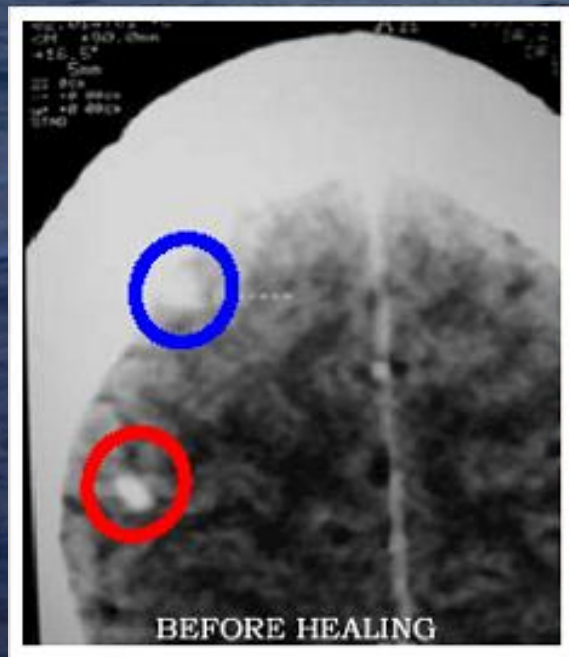

Now I donot have any problem from nose blocks, I have also got back my smell and taste which I was not having for the past "17" years.

This cure is only because of the "Pranic Healing done by Dr. Ramesh and his wife Mrs. Nalini-Ramesh to me. The service they are doing with good heart has done all the healing.
